### Schedule of Public Meetings:

On December 10, 2013, the City Council directed the Administration to return to the Council with a complete medical marijuana regulatory program that would regulate where medical marijuana establishments could operate in the City and the manner in which they could operate. Prior to bringing a proposed program back to the Council for its consideration, the Administration must first conduct environmental clearance review and present any land use component of the program to the Planning Commission for their review and recommendations. In addition, the Administration will be taking the opportunity to engage the community in discussions regarding the program.
